### **Abstract:**

These guidelines are provided for preparation of papers accepted for publication in SISC2016 Conference. Abstract body should be 8 pt., bold, use justify aligned (aligned text to both the left and right margins), and single spaced. The abstract must not exceed 300 words. (4-6) keywords must be provided at the end of abstract. All papers that are accepted by the relevant scientific committee of an SISC2016 event will be published provided they arrive by the due date and they correspond to these guidelines. Moreover, all accepted papers will be published as a standard issue of the Journal of University of Zakho and will be ready at the conference event. Reproduction is made directly from author-prepared manuscripts, in electronic or hardcopy form, in A4 paper size 297mm x 210mm (11.69 x 8.27 inches). To assure timely and efficient production of the Archives and Annals with a consistent and easy to read format, authors must submit their manuscripts in strict conformance with these guidelines. The conference committee may omit any paper that does not conform to the specified requirements. There will be no opportunity for corrections or improvements of poorly prepared originals.

**KEY WORDS:** *Automation, Brain Tumors, Land Cover, Normal Distribution, Tissue Bath System.*
